Governance, Leader Support & Mentorship

ACSI assists schools with their governance, which means advising on the management of the financial, human, and other resources at school level, in order to attain the short-term objectives and long-term goals of the school. If a school is facing any educational sector challenges, they are encouraged to reach out to ACSI, whether telephonically or by arranging a meeting via ZOOM. The ACSI team of Educational Leaders is ready to help and support. Support includes school visits, webinars, telephonic support and sample policies. ACSI Management are also able to assist with guidelines regarding a Christian School governance model and to offer School Board training.

Christian Education

Watch this video that will tell you more about Christian education, governance and resources.
